

**AN INTRODUCTION  
TO OUR TWIN TOILET RANGE**

**BOSS CABINS**

# WELCOME TO BOSS CABINS' TWIN TOILET WELFARE RANGE. EQUIPPED WITH FEMALE AND MALE TOILET CUBICLES AS STANDARD, THESE WILL KEEP THE WHOLE WORKFORCE HAPPY AND MAKE SURE YOUR FLEET IS FULLY HS2 READY.

With more and more women working in construction and on sites, we've taken some of our most popular mobile and static welfare cabin models and brought them right up to date with twin toilet facilities.

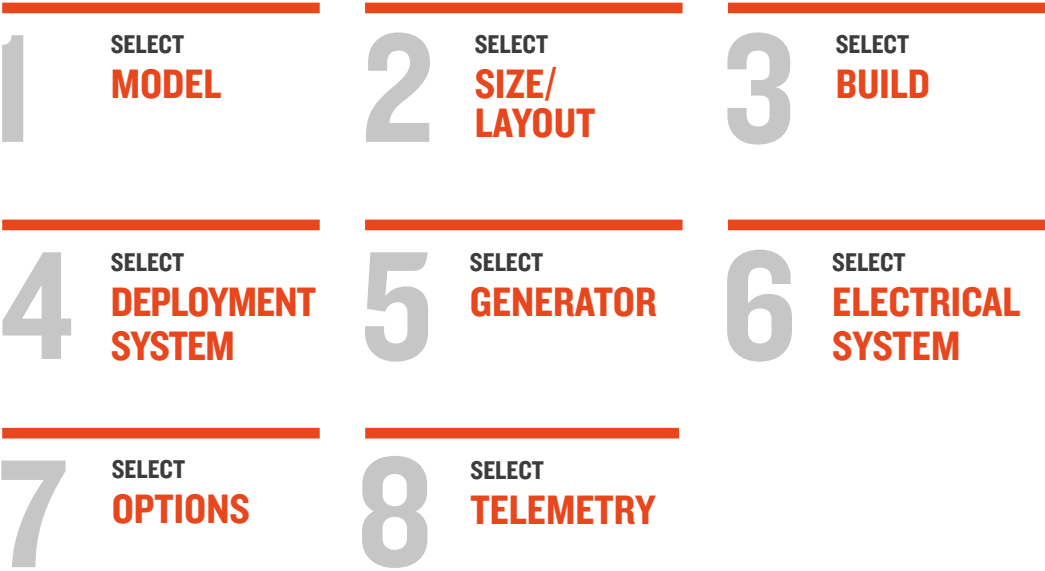

We've not sacrificed any of the comfort and functionality that our Canteen Space and Canteen/Office Space units are renowned for but created a range that caters for everyone and is perfect for today's worksite.

The Boss Cabins' twin range is created with the same build quality, same feature-rich standard models and same attention to detail that mark out all our cabins. In addition, you have the same access to all the optional features that allow you to build a cabin perfect for your requirements.

Please refer to our main mobile and static brochures for more detail on all build options, generator choices, electrical specifications, telemetry and other upgrades available.

## A FLEXIBLE APPROACH TO BUILDING YOUR CABIN

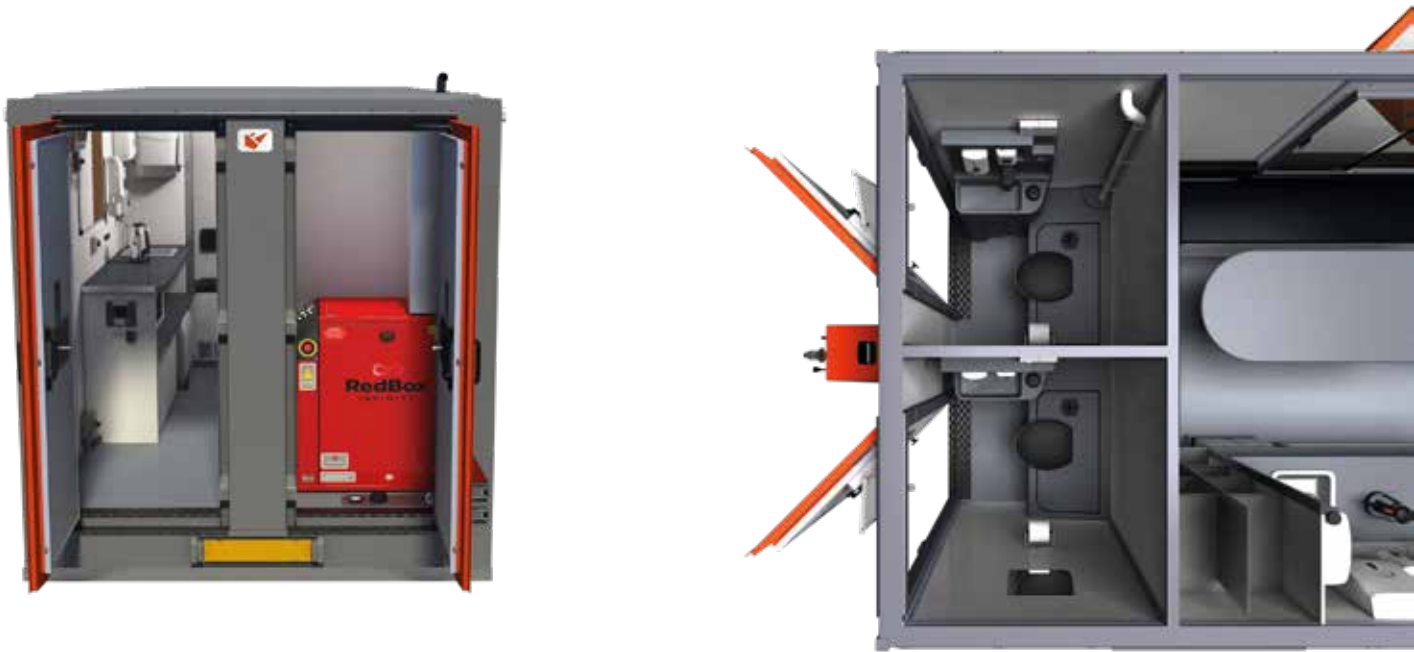

## WITH BESPOKE REQUIREMENTS, WE WORK THROUGH THE FOLLOWING PROCESS

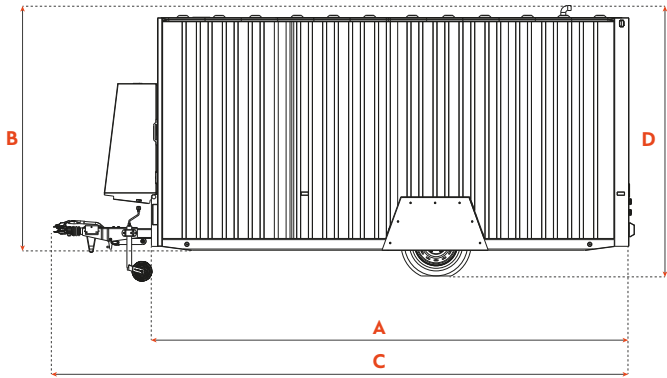

Mobile Canteen Space 16

8 PEOPLE
